~~CONFIDENTIAL~~CLASSIFICATION ~~SECRET~~COUNTRY Germany (Soviet Zone)TOPIC Reconstruction of the Second Track on the Belzig-Wiesenburg Railroad Line

25X1

DATE OF CONTENT December 1950DATE PREPARED 20 January 1951

A second track is being constructed on the Belzig (N 53/Z 30)-Wiesenburg (N 53/Z 20) railroad line. By 6 December 1950, 4 to 5 km of trackage had been laid from the Wiesenburg railroad station in the direction of Belzig. Whether work on this project was started simultaneously from the Borne (N 52/D 67) and Belzig railroad stations has not been determined.

25X1

the reconstruction of the second track on this line was scheduled to be completed by late December 1950. However, it was believed that this target date would hardly be met because of a shortage of housing for the workers required for the project. Difficulties in the procurement of materials were not mentioned. *

25X1

* Comment. The reconstruction of the second track on the Belzig-Wiesenburg railroad line, a section of the important Berlin-Belzig-Magdeburg (N 53/Y 60)-(N 52/E 17) north-south route, was reported previously. Dessau

25X1

It can be expected that the construction project will be extended beyond Justeritz in the direction of Berlin during 1951.
